EDUCATION

CMR institute of technology

Bachelor of Technology in Computer Science and Engineering

CGPA - 7.7

2019, 2023

Narayana Junior College

Intermediate (MPC)

Marks - 946

2017, 2019

Mahathi Vidhya Niketan High School

Schooling

CGPA - 8.8

2017

EXPERIENCE

Hitachi Vantara

Jan 2023 – August 2023

Application Engineer Intern

- Proficiently developed intuitive and user-friendly front-end components using the React Library, ensuring a seamless and engaging user experience.
- Led efforts to optimize the back-end using Spring Boot, achieving: 40% boost in system performance, 30% increase in operational efficiency.”
- Efficient collaboration and reduced software development time by 20% and Upgraded on-time project delivery by 15%.

PROJECTS

Hi-Skill Development | *React, Spring Boot, Spring Security, PostgreSQL, Postman, GitHub*

- Developed user-friendly frontend components using React framework and optimized backend functionality with Spring Boot.
- Strengthened data security and increased efficiency by implementing Spring Security, reducing unauthorized access incidents by 30%.
- Conducted rigorous testing and debugging with over 95% code coverage.
- Improved code review efforts by more than 40%.

Portfolio | [Live Demo](#) | *Html, Css, Bootstrap, Javascript, React*

- Explore my world of creativity and innovation! I've crafted a responsive portfolio using React, showcasing my diverse skill set and an array of exciting projects.
- Interested in my work or have a project idea? Connect with me effortlessly through the integrated contact form. Powered by the efficient email.js library, your details will reach me directly, ensuring a prompt response.
- Website - [Git-Hub](#)

Spotify Clone | *Html, Css, Bootstrap, Javascript*

- Developed a responsive Spotify clone with HTML, CSS, and JavaScript.
- Achieved a visually stunning user interface, including play/pause, previous/next, progress bar, volume control, and search functionality using pure JavaScript.

Voting System | *React, Redux toolkit, SpringBoot, PostgreSQL, JWT*

- Developed the frontend using React.js to provide an intuitive interface for voters to log in and cast their votes.
- Implemented a Spring Boot backend, ensuring seamless integration with the frontend and secure handling of user authentication.

TECHNICAL SKILLS

Programming Languages: Java, SQL, C

Front-End Technologies: HTML5, CSS3, JavaScript, Angular, React

Back-End Technologies: Spring Boot, REST

Data storage technologies: MySQL, PostgreSQL

Developer Tools: VS Code, Eclipse, IntelliJ IDEA

CERTIFICATES

- InternShip Certificate
- Matrix Algebra for Engineers(Coursera)

Course work

- Computer Networks
- OOPs, DBMS
- Operating System
